

**UNITED STATES
MOVES TO STOP
CHACO FIGHTING****Seeks Support of South
American Nations
in New Steps**

Washington, May 18 (AP)—The United States moved today on two fronts to silence the guns that for fifty years have boomed between Bolivia and Paraguay.

Under urgent State Department instructions, American envoys in Argentina, Brazil, Chile and Peru are seeking the support of those governments in a plan for joint action to bring an immediate end to the blood-drenched dispute over the jungle area.

At the same time President Roosevelt began drafting a message in which it is indicated he will ask Congress for quick passage of an arms embargo bill.

This would permit the United States to join with 16 other nations in declaring an international and impartial embargo on all shipments of war supplies to the belligerents. Bolivia and Paraguay are landlocked nations. All war munitions must be imported through the four countries whose territories surround them.

IS BEFORE LEAGUE

Geneva, May 18 (AP)—The proposal to clamp an embargo on arms shipments to Paraguay and Bolivia was referred to jurists by the League of Nations council today after a Bolivian representative had vigorously opposed its application to his country.

Costa Durel of Bolivia told the council that the embargo would end the warfare in the Chaco Boreal—would be unjust to Bolivia from judicial, geographical and political standpoints.

"Its application on both countries would further the aims of Paraguay and would be a penalty not deserved by Bolivia," he contended.

The jurists will determine the legal form the proposed embargo would take and report at the earliest possible date to the council.

Ramon Caballero De Bedoya of Paraguay declared that he would go to any lengths to bring about a determination of the aggressor and said he believed the jurists should examine the question of responsibility in the Chaco fighting.

**Teamsters' Strike
in Chicago Ended
Suddenly Yesterday**

Chicago, May 18 (AP)—A three-day teamsters' war ended suddenly when employees of the Wilcox Coal company voted to join a new union affiliated with the American Federation of Labor.

The vote was made when police yesterday forced the withdrawal from the coal yards of officials of the Chicago Coal Teamsters' Union, the old organization.

At that time, 59 of the 100 employees of the company who for three days had been unable to leave the yard with their trucks, retired to a garage and balloted in favor of the Coal Handlers & Drivers, local 704, whose pickets were stationed outside the yards.

Violence reached its peak Monday when several men were reported slugged and drivers arrested. Three of their number had been beaten and others threatened.

**State Senator's
Cousin Denies He
Had Part in Plot**

Springfield, Ill., May 18 (AP)—Seeking to avoid extradition to Cleveland on a charge of conspiracy to commit arson, Roy A. Maypole, alias Burke, of Chicago today denied he had any connection with a fire in a \$1,000,000 warehouse.

Maypole testified at a hearing before DeWitt Billman, who acted for Governor Horner. He is a cousin of State Senator George Maypole of Chicago.

Harry Silverstein of Chicago, one of his attorneys, told Billman the Ohio authorities were making a "grandstand play" in an effort to relieve Max E. Feltzman and other Cleveland persons of responsibility. Feltzman is appealing his second conviction for the fire.

Maypole declared he did not know Feltzman, that he was not employed by him as a warehouse watchman, and that he was not in Cleveland the night of the fire.

**American College
Girls Win Battle
of Visas in Spain**

Madrid, May 18 (AP)—The thirteen American college girls who had been refused permission to enter France without certificates of good conduct won their "battle of visas" today against the French consul without filing a single telegram.

Twelve of the girls are from the Smith College and the other from Barnard College of Columbia University. The consul yesterday had refused to grant them visas unless they cabled to America for character vouchers.

Today he capitulated.

neered for beauty in commercial

buildings and was regarded gener-

ally as a leader of his profession in

**DROUGHT HELP
PLANS RUSHED
BY GOVERNMENT****Five - Point Scheme Is
Thought Likely Re-
sult of Study**

Washington, May 18 (AP)—

The government put its helping

hand today behind a five-point re-

lief plan for drought sufferers.

Although final conferences were

not over, and official announce-

ments was yet to come, it was con-

sidered probable the plan would

include these major points:

1. More cash grants to affected

states.

2. Extension of seed and feed

loans from \$40,000,000 available to

the Farm Credit Administration.

3. Purchase of beef cattle in the

drought area for government re-

lief.

4. Shipping of some livestock

from the area and livestock feed

into it at reduced freight rates.

5. Relaxation of the regulations

against planting forage crops.

Would Buy Cattle

While the President's drought

committee rushed its plans, a bill

to provide \$150,000,000 for relief to

the cattle and dairy industry in

general under the Jones cattle re-

lief act was half way through Con-

gress. The appropriation bill which

passed the House yesterday, would

furnish an estimated \$100,000,000

for the dairy and livestock indus-

tries and \$50,000,000 to buy cattle

not suitable for breeding. These

cattle would be used for emergency

relief purposes.

No Encouragement

After agreeing on drought relief

measures the Farm Credit Adminis-

tration and Harry L. Hopkins, re-

lief administrator, are to designate cer-

tain counties in the drought area

for immediate action. The first of

these will be in North and South

Dakota, described as the most se-

riously affected states.

The Weather Bureau offered lit-

tle encouragement. Predictions

were that light local showers would

fall today in North Dakota, north-

eastern South Dakota, Minnesota,

Iowa and Wisconsin, but that they

would not provide permanent re-

lief.

board has decided in the case of

the woman who was sent to the

penitentiary 11 years ago for the

murder of Albert Meadows.

Mrs. Phillips will leave the pri-

son next year with the confidence

of Warden James Hollahan of San

Quentin prison that she will "make

an excellent accounting for her-

self." Opposing the board's action

District Attorney Euron Pitts of

Los Angeles called it an "outrage."

The murder for which Mrs. Phillips

was sent to prison was committed

on July 12, 1922. The state charged

at the trial that Mrs. Meadows was

slain because of Mrs. Phillips' jeal-

ousy over asserted attentions paid

to her husband, Armour Phillips.

**JUNE FAILS TO
IDENTIFY SIX
SUSPECTED MEN****None of Men Held as
Child is Unable to
Recognize Them**

Tucson, Ariz., May 18 (AP)—

Their star witness having failed to

identify six possible suspects in her

kidnaping, authorities sought more

today for six-year-old June Robles

to view.

June, recovering from the effects

of her 19 days of imprisonment in

a desert trench, viewed six of num-

erous persons questioned yesterday

but she was unable to identify any

of them as having connection with

her abduction. No arrests were

made nor was any suspect held.

Authorities indicated they might

check further some leads which

sent them scurrying on wild hunts

through nearby Sonora, Mexico

while June still was missing. Span-

ish language newspapers were dis-

covered in a further search around

the spot where June was found on

Monday, chained by her ankles in

a buried sheet-iron box 9½ miles

south of here.

Inspection of the various articles

found in June's prison, cans, bits of

papers, together with the metal

box, was invited by authorities in

the hope someone might identify

the exhibits as relating to persons

who might have seized the child.

TWO OFFICIALS

IN N. CAROLINA

SHOT BY GUNMEN

Newton, N. C., May 18 (AP)—

Two officers were seriously wound-

ed here early today by machine

gun fire from a small sedan which

they had sought to halt.

Becoming suspicious of three

men who drove in and out of the

city during the early morning

hours, Patrolman Arthur Hoffman

called Deputy Sheriff Ray Pitt to

his assistance and sought to halt

the car which bore Tennessee

license plates.

They said a machine gun was

poked through a window as they

approached, and a hail of lead met

them. They the car sped away

before residents, hearing the

shoots, reached the spot.

Dangerously Wounded

The officers were taken to a

hickory hospital, where they were

said to be dangerously wounded,

although the full extent of their

injuries had not been determined.

Pitt said the Tennessee car halt-

ed, and that Hoffman walked up

to it and reached for a bottle of

liquor in the rear seat. One of the

men, he said, cried "put 'em up,"

and started firing immediately.

The officers said they drew their

guns as they fell, and emptied

them as their assailants drove off.

Both expressed the conviction they

had at least hit the fleeing car.

The man with what appeared to

be a machine gun continued his

firing, Pitt said, and bullets

ploughed into the street near

where the officers fell.

MILK PRICE

Due to prevailing unusual conditions, it is impractical for the Borden Company to announce in advance the price it will pay for fluid milk delivered and accepted.

Therefore, until further notice, the price for fluid milk will not be announced until after said milk is delivered and accepted. The price will be published within five (5) days after the period for which the company will have heretofore announced the price in advance.

The price for April was \$1.19 per cwt. for 4 per cent milk, direct ratio.

The Refracting Telescope

In the refracting telescope the light falls upon a lens which converges the rays to a focus, where the image may be magnified by a second lens called the eyepiece or may be directly photographed. The reflector consists of a concave mirror, generally of glass coated with silver, which throws the rays back toward the upper end of the telescope, where they fall on the eyepiece or on the photographic plate, as in the case of the refractor.

 Been Made in General Store There

West Brooklyn — A program of modernization of the F. W. Meyer general store in West Brooklyn has been in progress for the past several months under the supervision of experts in that line from Chicago, Dixon and Peru.

Modern fixtures have been installed among which are refrigerated counters, adjustable shelving display cases, etc. In the arrangement of the new fixtures each line of goods has been departmentalized, which necessitated additional aisles allowing customers to select their needs from the huge stock of merchandise which Mr. Meyer always has on hand.

The store has been beautifully decorated in harmonizing color schemes of ivory, green and buff. The walls, ceiling, shelving, display cases in fact everything combines to make a perfect blend and the men who took part in the program deserve much credit.

Mr. Meyer has been in the mercantile business here for the past thirty-two years coming from Lad where he had had fourteen years of previous experience with the Western Supply Company; seven years as a salesman and seven as General Manager. This makes a total of forty-six years in this line of work, years that have always been active, alert, progressive and courteous on the part of Mr. Meyer and his employees.

Miss Thais Meyer, his daughter, Miss Mary Danekas and Charles Elliott assist in the clerical work at the store, and they have been drilled to follow Mr. Meyer's own policy of courtesy, honesty and appreciation.

John Reverts of Byron transacted business in Dixon Wednesday.

Mrs. Edna Natress has gone to Chicago to spend the day.

\$30,000 BANK
ROBBERY

(Continued From Page 1)

Telegraph, with a similar report of the finding of the hideout, said confirmation had come from Melvin H. Purvis, chief of the Chicago office of the Federal Bureau of Investigation, but at Purvis' headquarters it was said information on the confirmation was lacking.

Find Bremer Prison? The Telegraph-Herald also reported that the agents had found the farm house where Edward G. Bremer, kidnaped St. Paul banker, had been held prisoner. The house is situated not far from the abandoned mine. Previous reports had linked the Dillinger mob with the \$200,000 "snatch" of Bremer.

The locale of mine hide-out was described as a deserted section of hilly country, settled early in Wisconsin's history and seldom visited. The buildings, of stone, were constructed by the early settlers, and include an old stone tower from which the Dillinger mob could well have kept a lookout.

"Sure" He Hasn't Fled Meanwhile, federal agents in Chicago indicated they are satisfied that Dillinger has not fled to South America or Mexico, as rumored, but is still in hiding in or near Chicago. They said they were "almost sure" that Dillinger was one of five men who eluded county highway police who fired on them early last Thursday morning.

The basis for this belief was a report that telephone calls had been traced from Chicago to a farm near Newcastle, Ind.

Another report from Iowa City, Iowa, said that officers there were speculating on whether Dillinger had passed through that city recently. An abandoned motor car carrying Indiana license plates was the basis for the speculation.

CARROLL IN MT. CARROLL? Mt. Carroll, Ill., May 18—(AP)—Reports of a Dillinger gang hang-out having been found in the neighborhood of Dubuque, Ia., current here today, found a reflection in a story that a man resembling "Tommy" Carroll, Dillinger gunman, had been seen here Wednesday.

A number of townsmen said that the man, driving a car with a Wisconsin license, drove around the courthouse square four or five times and finally stopped on monument corner to pick up a passenger.

The driver was dressed in overalls and his face was smudged with grease. The passenger was described merely as short, and sturdily built.

They drove out of town immediately.

NEW NAME URGED Harrisburg, Ill., May 18—(AP)—The incorporated village of Bolton, near here, better known as "Stonefort" will soon no longer exist if the village board and the residents are successful in the proposed change of the name of the village from Bolton to Stonefort.

National Bank
 Deposits Jumped
 Over Two Billion

Dallas, May 18—(AP)—A billion-dollar jump in national bank assets and deposits in the first two months of 1934 was announced today by J. T. O'Connor, comptroller of the currency.

He said assets increased from \$21,747,483 on December 30, to \$22,941,173 on March 5, while deposit liabilities went up \$1,200,605,000 to \$18,790,487,000.

O'Connor gave the figures in an address at the fiftieth anniversary meeting of the Texas Bankers' Association. It was the first public statement of results of the March 5 call for the condition of national banks.

AT PRAIRIEVILLE Parker Barton of Dixon will speak at the Prairieville church Sunday evening at 7:30, and will take as his subject the Twentieth Chapter of Revelations. A series of talks on Revelations will be made.

THE TWENTY-THIRD PSALM

THE Lord is my Shepherd; I shall not want. He maketh me to lie down in green pastures; He leadeth me beside the still waters. He restoreth my soul; He leadeth me in the paths of righteousness for His name's sake. Yea, though I walk through the valley of the shadow of death, I will fear no evil; for Thou art with me; Thy rod and Thy staff they comfort me. Thou preparest a table before me in the presence of mine enemies; Thou annointest my head with oil; my cup runneth over. Surely goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever.

Shrine Drill Receives High Praise for Work

Mrs. Maude L. son, Worthy High Priestess of Corinthian Shrine No. 40 of the White Shrine of Jerusalem has just received a letter from Anton T. J. Beck of Chicago a letter congratulating Mrs. Fuson and the White Shrine of Dixon for the excellent manner in which their drill team performed at the recent Supreme Shrine meeting in Chicago. Following is the letter which explains itself:

Chicago, Ill.
May 11, 1934.

Corinthian Shrine No. 40,
Mrs. Maude Fuson,
Dixon, Ill.

Dear Sojourners:
Corinthian Shrine, No. 40, should be complimented for the splendid drill team that they sent to the Supreme Session.

This patrol performed in a splendid manner and many compliments were passed from time to time on the various maneuvers.

Thanking you for the co-operation of your team while in Chicago, I am,

Marion Unit Met In Walton Wednesday

The May meeting of the Marion Unit of Home Bureau was held at the home of Mrs. Ed Reeser in Walton on Wednesday afternoon, with twelve members present. The meeting was presided over by the chairman, Mrs. Reeser and the usual order was followed. The recreation chairman, Mrs. Daum conducted the "sing."

The current lesson which dealt with mattresses proved very enlightening, as well as interesting. These different intimate studies of common household necessities prove that home makers and house keepers have in the past presided over a world of mysteries and will be a forceful means of future intelligent buying which will be appreciated by dealers as well as "friend Husband."

Plans were made to participate

in the food sale at Amboy on Saturday, May 19th, and every two weeks hereafter.

A social hour followed during which the hostess served a delightful lunch.

The June meeting will be with Mrs. Frank Brooks on the 3rd Wednesday of the month.

Thursday a Gala Day at Immanuel Church; Birthdays

The ladies of the Immanuel Lutheran church had a birthday party yesterday in the basement of the church. Every lady celebrated her birthday on one and the same day. Over sixty ladies were present. The occasion happened to fall on Mrs. A. G. Suechting's birthday anniversary and on the 40th wedding anniversary of Mrs. Herman Rasmussen. The committee in charge deserves much credit for the wonderful decorations and program. Those on the committee were: Mrs. J. E. Salzman, Mrs. W. C. Martin, Mrs. George Aschenbrenner, Mrs. Arthur Klein and Mrs. Otto Witzleb. Out-of-town guests were Mrs. A. K. Schoenfelder, Mrs. A. O. Harpman, Mrs. Bertha C. Scholl, sisters of Mrs. Suechting, and Mrs. S. J. Altpeter and Mrs. W. Altpeter, sisters-in-law to Mrs. Suechting. The tables were beautifully decorated according to the months of the year. There were twelve ornaments and each lady selected the table that represented her birthday month.

The program consisted of a

violin solo by Rev. A. G. Suechting accompanied by Mrs. Suechting. Rev. Suechting then read everyone's horseshoe which created much laughter and excitement. The reading was concluded with a birthday wish in song, rendered by the pastor. The words are: "Many happy returns of the day. Many seasons of joy be given, May the Lord in His mercy prepare you on earth For a beautiful birthday in heaven."

The Ladies Aid presented Mrs. Suechting with a beautiful silver casserole. Mrs. Rasmussen received a pretty ruby fruit bowl. Many individual and useful gifts were showered upon Mrs. Suechting. She responded with very fitting remarks of her appreciation and thanks.

When Is Married Woman Not Married?

Erie, Pa., May 18—(AP)—When is a married woman not a married woman?

That's the thorn piercing the side of Erie's school board, now that it has barred the hiring of married women teachers.

Mrs. Bertha W. Mahoney started the storm by asking the board if a woman teacher, married and separated from her husband but not divorced, was eligible for a contract.

"I know of two or three women," she continued, "who are now living with their husbands and not getting along so well. They would be willing to give up married life if they could be appointed teachers."

Supt. of Schools John C. Diehl thought that women not living with their husbands are eligible.

But this brought a chorus of "nos" from the board.

"That might open the way for fraud," one director pointed out. "We might have some married women leaving their husbands to become teachers and then returning to their husbands again. Then we couldn't break the contract. Let them get a legal divorce first."

Exasperated, John McDonald, the board President, said "let's get a legal opinion."

Print Pictures Syllabus Winners

The Chicago Examiner this morning printed the photographs of six winners in the syllabus contest at the Northwestern University, who it was stated, would first learn of their selection for inclusion in the famous annual when they read the paper today. Included in the list is charming Margaret Rogers, daughter of Oliver Rogers of this city.

Practical Club Enjoys Luncheon; Officers Elected

The Practical Club enjoyed a luncheon at Grand Detour Wednesday, May 16th, at Beck's tea room. The hostesses were Mrs. Raymond Worsley and Mrs. Clinton Rhodes. The tables were attractively decorated with violets and lilies of the valley.

After the luncheon a business meeting was held in which the following officers were elected for the coming year:

Mrs. Leon Hart—President.
Mrs. Raymond Worsley—Vice Pres.

Mrs. Harry Stephan—Sec. Treas.
Mrs. Smith gave a very well prepared paper on "Rare Porcelains."

She told of the early Egyptian porcelains and that the Chinese were among the earliest to make porcelain and hence, the name, China ware.

The Chinese make the blue and white ware, and she told the romantic story that is told of this pattern. The French make the Haviland china. She told of the Wedgwood ware made in England and also of the Cream ware and the Spade.

The club members had each brought rare pieces of china which were exhibited and each one told the history of the piece they displayed. This proved to be very interesting.

The club will have their picnic on June 5th.

CHECKING A NUISANCE.

Herbert Hoover's rebuke of the young University of Pennsylvania freshman, who sought to impress the editors of his college paper by getting an interview with President Roosevelt and wound up by writing to Mr. Hoover for help, is a little document that ought to get a wide reading.

Mr. Hoover bluntly informed the young collegian that high government officials are busy men who don't have time for the amateur interviewers, autograph collectors, and other varieties of bright young men who buzz about their heads.

Every president has such ambitious but misguided youngsters to contend with. Mr. Hoover himself doubtless suffered from them in his own day. Now he seeks to squelch one who is trying to get at his successor, and in seeking to squelch him he has struck a blow in a good cause.

The time of a president is too valuable to be wasted on young collegians who are out to show their own cleverness and initiative.

BREASTING THE WAVES.

England's income from her shipping exceeds that from any visible exports—steel, textiles, coal or other goods. The kingdom has \$1,500,000,000 invested in the trade; before the war, British tonnage was 41 per cent of total world tonnage.

Now, however, things have changed. British tonnage is only 27 per cent of the world total; such foreign nations as the United States, France, and Japan have used subsidies lavishly to develop their own shipping, and in that fact is one of the major explanations for Britain's protracted industrial slump.

Yet it probably would be premature to sing a swan song for England's maritime pre-eminence. The English have had centuries of experience on deep water. Building and using ships is, by now, almost second nature to them.

British shipping may be in a decline just now; in the long run, it is very likely to maintain its proud and lucrative position.

The English get into slumps, but they have an uncanny

knack for holding on tight and coming out of them stronger than ever before.

GREECE'S LUCKY ESCAPE.

The people of Greece don't really know how lucky they are. If they read American newspapers, however, they may yet find out.

Samuel Insull, bound home in spite of himself, reveals that he had laid careful plans to erect a gigantic power empire in Greece. He says that after a long study he became thoroughly convinced that "we could quickly make Greece the leading commercial and industrial country of the Near East"; and only his untimely flight prevented him from putting his plans into execution.

Mr. Insull once held a similarly grandiose plan for the United States, and the place is still sore. Someone ought explain to the descendants of Pericles and Demosthenes that this seems to be their lucky year.

The Insull brand of industrial greatness failed to descend on them.

FASCISTS' FOLLY.

There seems, fortunately, to be a curse on those people who would like to inflict Fascism on the United States. Something makes them show themselves up before they have a chance to take hold of things.

Consider, for instance, the case of Art J. Smith.

About a year ago Smith was waxing big as the head of the "Khaki Shirts" of America; he was a general, no less, and he talked of leading 7,000,000 followers to Washington to set up a Fascist dictatorship.

The other day Smith was sentenced to prison in New York as a perjurer. His army had scattered, and he stood convicted of having tried to lie an innocent man into prison as a murderer.

And the brand of Fascism he represented, instead of growing into a public danger, dissolved into a ludicrous footnote to history.

When Kansas gets her full quota of corn-hog money and adds to that a bonus for cattle, we will horn out Texas and stand out as the bright and shining leader of the whole galaxy of American states.—William Allen White, famous editor.

It is scant satisfaction to the mothers of today to be remembered by the gesture of a flower on Mother's Day, but to be forgotten and ignored in their travail. — Dr. Howard Haggard, Yale medical authority.

The specter of Lawrence of Arabia has haunted and followed me relentlessly for 15 years and made me a pariah in the nations of the world.—T. E. Lawrence, now Aircraftman Shaw of the British army.

I meet so many dead people who are walking around. I wonder sometimes whether I'm dead, too.—Clarence Darrow.

One of the oldest and quietest roads to contentment lies through that traditional trinity of wine, woman, and song.—Prof. Rexford G. Tugwell.

I'm glad I've lived as I have. If I had my life to live over again I wouldn't do anything differently.—Eva Tangway.

We have shown that women can go anywhere these days without being annoyed by flirtatious males. — Miss Leila Roosevelt, distant relative of the president, back from an auto trip around the world.

City of Colon

The city of Colon, Panama, was first named Aspinwall-Colon, in honor of William H. Aspinwall, one of the first builders of the Panama railroad, and for Colon, a brother of Christopher Columbus. When the French started construction of the canal in 1851 the name Aspinwall was dropped.

(READ THE STORY, THEN COLOR THE PICTURE)

"You, Tommy Tucker? Gee, I've read about you often," Coppy said. "Please tell us why you have to sing a song before you eat."

"I never have done that, you see. That's why it sounds so strange to me. I do not mean your singing, cause that really sounded sweet."

"Well," said the lad, "my mother likes the voices of all little tykes. That's why I wish that you'd all join right in this pretty song."

"If she feeds me, she'll feed you, too. I'm sure that that appeals to you. Come on, let's start, and then some dandy food will come, ere long."

All of the voices then rang out. "Well, goodness, what's this all about?" exclaimed a woman who stood in a doorway right nearby.

"Hi, mom!" said Tommy. "We want lunch! This singing was my happy lunch. I let these other tots join in, and I guess you know why."

"You bet I do," his mother said.

Daily Health Talk

GROWING PAINS

Some expressions so much catch the fancy of the average man that it is next to impossible to outroot them. "Growing pains" is such an expression. It seems right to man's moral sense that one should only grow through suffering—that growth should be associated with pain.

Perhaps there is warrant for this moralistic belief in the realm of knowledge and in that of spiritual development. But in the field of medicine, while growing pains may be associated with that period in life in which physical growth is rapid, the pains are not the price of growth, nor are they a normal associate of development.

It isn't natural for the growing

child to suffer pains, and when he does the explanation for the pains must be sought for elsewhere than in the growth process.

As long ago as 1884 Abraham Jacoby, one of the country's pioneer children's specialists, pointed out that those vague and ambiguous pains in children which are called growing pains are frequently associated with rheumatism. He definitely traced the relationship between so-called growing pains with rheumatic inflammation of the joints and with rheumatic disease of the heart.

It is parents of a child complaining of pains in its muscles, joints or bones should not, therefore, be reassured that it is merely paying the price of growth. Such a child is very surely in need of careful medical examination for the pains may be due to what we call rheumatic

and bone pains that the child may have.

Of course, not all the muscle, joint complain of are rheumatic in nature. Sometimes they are the result of chronic fatigue or of postural and other orthopedic defects and disorders. Chronic infections of a non-rheumatic type, such as those associated with bad tonsils, bad teeth and sinus involvement, may also be responsible for some of the so-called growing pains.

Chicago's Eccentric River

A river reversed, a river running uphill, a river that can be operated with a lever, a river in two colors (one the dirty black waters of a normal branch, the other the green of the lake water marching up the second branch), the Chicago river has had an exciting career. It might perhaps be called the most eccentric of rivers. So far as willingness to try things goes, it might also be called the most aggressive.

Living Our Everyday Lives

WHAT'S IN YOUR WALLET

By Joseph Fort Newton

One of the loveliest scenes in the life of St. Francis was his visit to the Bishop of Ostia. The Bishop gave a banquet, but Francis did not touch it. Sitting next to his host, amid knights and nobles, clad in his rough garb and girdle, he took his wallet a piece of black bread and began to munch it.

What a picture for an artist to paint—the Poor Little Man eating his secret bread which he had begged, while the Bishop and his guest dined so richly! It was the Bread of God, he said, given him by the peasants to whom he preached the gospel of love and comradeship.

Having partaken himself, with the gayety and courtesy which had marked his life, he went around the table giving a bit of his black bread to each of the knightly guests, saying: "I hold this as toward God the highest nobility and royal dignity, in honor of Him being Lord of all was willing for our sakes to become the servant of all."

No wonder Renan, the skeptic said that the life of Francis made it easier to believe in Jesus—his life is at once a poem and a paragon. There is only one thing certain—we all have something by which we live; some secret bread of the soul, something which nourishes and sustains us. Or, if our wallet is empty we go hungry.

The bread by which men live may be a different thing for each man alive. Aye, it may be a different thing at different times of life; different in youth from what it is in old age. No one should despise the secret bread by which another lives, but happy is he who feeds his soul on that from which his soul came—he will not perish.

What is in your wallet, my reader? What do you live on when life is bitter or stale? What crumb of comfort, what crust of faith, keeps your soul alive? What secret bread gives you strength for today and hope for tomorrow? Each must answer for himself, and so let him eat.

The world is hungry today, not alone for bread but for love, for sympathy, for justice. If we have bread enough and to spare, we ought to share our crust with our fellow souls.

Moon's Diameter

It is the moon's diameter which is spoken of as being one-fourth the size of the earth. In fact, its diameter is a trifle more than one-fourth because it is actually 2,160 miles while the polar diameter of the earth is 7,927 miles. The surface of the moon contains about 14,657,000 square miles, while that of the earth is about 196,911,000 square miles.

Is it not worth something to be told how to look more beautiful and attractive. Miss Johnson will be at Sterling's Drug Store all week to tell you this very thing.

Noted Composer's Birthplace to be Part Ford Museum

Pittsburgh, May 17.—(AP)—The reputed birthplace of Stephen Collins Foster, the composer, was inspected today by Henry Ford who purchased the little unpainted cottage for his Dearborn Museum of early American homes.

The automobile manufacturer spent half an hour examining the house, and also visited "The White Cottage" a block away which many believe to have been Foster's birthplace.

Ford made no comment about the dispute.

"WAS TAKING EVERY KIND OF DRUG FOR CONSTIPATION"

Then ALL-BRAN Brought Relief

Read this very enthusiastic letter:

"I am 34 years old and as far back in my life I have been constipated. I was so bad that I had one bowel movement every five or six days. I was taking every kind of drug known for constipation.

"Now for the last two months I have been eating a little ALL-BRAN night and morning and I have at least two to three bowel movements each day."—Mr. Frank Piratzky, 40-66 98th St., Corona, Long Island, New York.

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also a fine source of iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, this clears out the intestinal wastes.

Isn't this safer than taking harmful patent medicines? Two tablespoons daily are usually sufficient. Severe cases with each meal. If not relieved this way, see your doctor.

You'll enjoy eating Kellogg's ALL-BRAN cereal with milk or cream—sugar or honey or fresh fruits added. Or, to use in cooking.

In the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

NACHUSA LUTHERAN CHURCH

On the day of Pentecost, centuries ago, a handful of men were considered drunk for expressing their opinion of Jesus. But their courage and persistence had a wonderful effect on seekers after salvation everywhere. In due time the church of Christ was organized to spread His influence throughout the world. Today to power of that Christian faith is still active and strong, able to save the lost from selfishness to a life of sublime joy.

At the church's anniversary service next Sunday morning, May 20, nine young people of the Nachusa Orphanage will testify to the saving grace of Christ and by their public confession become communicant members of our congregation.

Friends and visitors are cordially invited to attend this confirmation service.

All of his churches and school buildings were destroyed by the Kurds and his converts murdered. He has been doing relief work here in America. He has a great and wonderful story to tell. ALLISON WILL JOIN CUP TEAM WITHIN A WEEK

Tennis Star's Sprained Ankle Mending, He Reports

Philadelphia, May 18—(AP)—The rising hopes of the American Davis Cup tennis team received another boost today—Wilmer Allison is due at the training scene after reporting his injury to be less serious than was at first believed.

Allison, last of the squad to arrive at the Merion Cricket Club in Haverford, sprained an ankle in Washington two weeks ago. In sending word that he was coming, the Texan revealed that he has been practicing easily for the past few days in Washington, but "can't do much running yet."

"I'll be all right in another week," he said his doctors told him. The five members of the squad besides Allison are Frank X. Shields, Lester Stoeft, George Lott, Sidney B. Wood and John Van Ryn. Working with them are Vincent Richards and Hans Nusslein, the first professionals to aid in training a Davis Cup team.

Jacobins and Jacobites

The Jacobins were a French party, holding liberal views. The Jacobites started as a club, composed largely of aristocrats, taking their name from the fact that their club quarters were in the Rue St. Jacques, Paris. They were the radicals of their period. Louis Philippe, afterward king of France, and Robespierre were leading Jacobins. Trademen and some wealthy peasants holding radical views were members. The Jacobins were supporters of the House of Stuart, claiming the descendants of James Stuart to be rightful kings of England. They have an organization in Scotland, Wales and in the United States.

BROOKVILLE

By Olive V. Bowers

Brookville—Mr. and Mrs. Milton Hess were host and hostess on last Thursday night to the joint Adult Bible Classes of the Grace Evangelical church, at the monthly business and social meeting, held at their home in Lima township.

With the program to be held on Friday evening at the school house, activities of the Brookville Parents-Teachers Association will cease until the opening of school in the fall.

Since the organization four years ago under the splendid leadership of Milton Hess, and the fine cooperation of patrons of the District, programs of an educational, intellectual and inspirational nature have been enjoyed. Contacts by way of the PTA, are no doubt a medium by which teachers, parents and pupils are drawn in closer relationship and understanding with one another. The Students council formed several years ago in the local school under the supervision of the teacher have been an outlet for the development of much talent among the boys and girls, they being always responsible for their own short programs and business preceding the monthly PTA programs.

The outstanding number on Friday night's program will be an address by the Rev. L. R. Minion, pastor of the Polo M. E. church. Two Lanark soloists will also be a special feature. Lunch will follow the program.

Clared Thompson and children of Pearl City were dinner guests on Sunday of his sister, Mrs. Samuel Martz and family.

Mr. and Mrs. Fred Wehmeyer, Mr. and Mrs. Nathaniel Martz and sons, were Sunday guests of the formers' daughter, Mrs. Terry Aldridge and family at Freeport. Mrs. Wehmeyer remained to spend this week in her daughter's home.

Charles Oberg and Albert Shaw of Stratford, Mrs. Leo Heckman and children of Dixon, Mr. and Mrs. Elmer Gordon of Pontiac, were Sunday guests at the home of Mr. and Mrs. C. B. Underkoffler.

Despite the dry spring season, the chancel at Grace Evangelical church was a bower of bloom for the Mother's Day service Sunday. A number of mothers were recipients of blooming plants from this lovely array, a silent tribute to a loving heart. Rev. J. E. Widmer in a short message spoke clearly of the homages and respect for "Motherhood." Special musical selections and readings contributed to this beautiful service.

Mr. and Mrs. C. Diffenderfer and family of Lanark, Mr. and Mrs. C. G. Krusey of Pearl City were visitors on Sunday of the latter's daughter, Mrs. Donald Smith and family.

Mr. and Mrs. W. O. Harter, Mr. and Mrs. Orville Harter and Miss Catherine Kramer spent Sunday in Mt. Carroll with Mr. and Mrs. Millard Rauser.

Mrs. Dewey Bowers was called to Byron on Monday by the death of her father Herbert Holland, aged 55 years. Mr. Holland passed away very suddenly while in the act of inspecting his farm near Leaf River for Canada Thistles. Funeral services were held on Thursday P. M., at Byron, with burial at Mt. Morris.

Mr. and Mrs. R. H. Garman and daughter, Miss Esther, were six o'clock dinner guests on Tuesday of Mr. and Mrs. Ernest Paul and family.

OAK FOREST

Mrs. Lester Hoyle

Oak Forest—Mr. and Mrs. John Russell and baby son, Charles, are spending this week at the home of her parents, Mr. and Mrs. Paul Johns. Mr. Russell is enjoying his vacation from his work at the utility plant.

Mr. and Mrs. Edward Hoyle and family spent Sunday with Mrs. Henry Burrows and family in Dixon.

Mr. and Mrs. Arthur Levan and family spent Sunday with Mrs. F. Becker's family.

Mrs. Chase, mother of Mrs. K. McGinnis, has returned to Indiana to make her home with her daughter Mrs. Leslie Squires.

Raymond Johns spent the week end at the Frank Buzard home, east of town.

Mr. and Mrs. Bert Hoyle, Mr. and Mrs. Lawrence Hoyle and son and Mr. and Mrs. Walter Hoyle and family spent Saturday evening at the Lester Hoyle home.

Mrs. John Boucher and Arthur Zinke were dinner guests recently at the home of Mr. and Mrs. Fk. Brooks, south of town.

Mr. and Mrs. C. F. Becker, and daughter, drove to Amboy Friday evening and enjoyed the WLS entertainment, sponsored by the Lee County Home Bureau. Walter Becker was among the featured entertainers, playing his guitar.

Mr. and Mrs. Miles Cox of Amboy accompanied by their son Ed and Miss Alice Johns, who is employed at the Amboy Hospital, were supper guests at the Paul Johns' home Sunday.

Mr. and Mrs. Clarence Ackland and baby daughter of Rock Falls spent the week end with Mr. and Mrs. Emil Reglin. On Sunday Mr. and Mrs. Reglin and their guests visited in Sterling with Mr. and Mrs. Robert Schultz.

Mrs. Minerva Phillips of Dixon entertained at dinner Sunday, Mr. and Mrs. Herman Missman, Mr. and Mrs. Oscar Missman, daughter, Bessie, and son, Clifford; Arthur Missman, Mrs. Etta Sieberns, Mr. and Mrs. Walter Hoyle and family, Mr. and Mrs. Floyd Missman and son, Mr. and Mrs. Ernest Ross of Rock Island and Mrs. Mablin.

Mrs. Albert Drogsvold of Stoughton, Wis., is visiting with her cousin, Mrs. John Lawrence in Prairieville.

Mr. and Mrs. Frank Becker visited Sunday with Mr. and Mrs. Lloyd Stoudt, of Dixon.

Robert Brauer and Miss Emma Lurche spent Sunday evening at the Paul Johns residence.

The Oak Forest School, Mrs.

Gail Dickey teacher, closed Friday May 4th, with a picnic at Cedar Crest. Marilyn Hoyle and Richard Hoyle received perfect attendance certificates.

Marilyn is the daughter of Mr.

and Mrs. Frank Hoyle who spent the winter in the Cedar Crest cottage. They have returned to town now, and Mr. and Mrs. Hubbard of Chicago owners of the cottage have taken over their residence there.

Walter and Edward Hoyle have given the school house a coat of white paint and are making other necessary repairs.

Robert Zinke, who is employed by Esper Diehl spent Tuesday evening with his brother Arthur, at the John Boucher home. Robert is the proud owner of a new bicycle, which he enjoys very much lately.

A crowd of young people one evening last week had a charivari on Mr. and Mrs. Merle Plock at the home of the former's parents. Only a few close friends of the family had been taken into the confidence of the young couple who were married some time ago.

in Morrison. Refreshments were enjoyed.

If you have aching tired feet Healo Foot Powder will be beneficial.

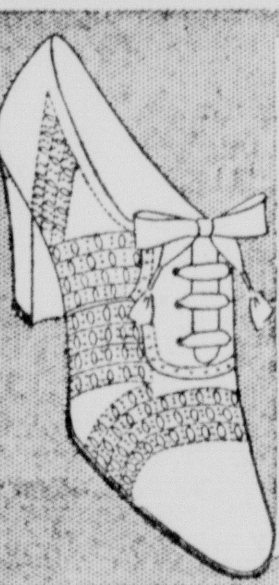

Do you want to be more attractive? Miss Johnson, beauty expert, will be at the Sterling Drug Store from Walgreen's Laboratories, Chicago all week to help you with your problems.

TARIFF TRADING MEASURE TO BE PASSED "AS IS"

Republican Efforts to
Curb Presidential
Powers Doomed

Washington, May 18—(AP)—Senate Democratic leaders marked "doomed" today all Republican attempts to limit President Roosevelt's powers under the reciprocal tariff trading bill.

Into the teeth of a gathering of projected Republican amendments, the new deal legislative chiefs flung their forecasts that the measure will be passed next week—"as is."

Before Senators Borah (R-Idaho) and Long (D-La.) assailed the measure in the opening debate as an unconstitutional grant of the taxing power to the President, minority leader McNary indicated a farm-exemption amendment would be pressed.

Finance committee chairman in charge of the House-approved bill, refused to accept such an amendment on the ground it would be "almost destructive" of the entire purpose of the legislation.

Senator Robinson, the majority leader, predicted that if the Republicans brought forth such a proposal it would be defeated.

Senator Johnson (R-Cal.), prepared an amendment to limit the presidentially negotiated tariff agreements to industrial products. Senator Vandenberg (R-Mich.) had one pending exempt all basic commodities under the Agricultural Adjustment Act.

These are only two of a score of amendments the Republicans have ready. One would require Senate ratification of the trade pacts. Another would exempt all products under NRA codes.

Robinson and Harrison believe all will be rejected.

Stores Fat in Tail
The gila monster, famous North American lizard which makes its home in the desert regions of Arizona and Mexico, stores up fat in its blunt tail during periods when food is plentiful. After a period of steady feeding, during which the tail becomes much enlarged, the animal is capable of going without food for several months, subsisting during this time upon the accumulated fatty tissue stored up in its tail.

The Circus Is Coming

Harrington's Nickle Plate Circus and Pawnee Bill's Buffalo ranch, combined shows will be in Dixon on Monday, May 21 and that is good news for everyone, not only the children but their parents as well.

A full three ring circus and wild west show will be here for two performances, there will be a big free street parade at noon, so be on hand early so as to be in the front row. The Harrington circus and Pawnee Bill's Buffalo Ranch combined shows brings to Dixon one of the finest and best equipped motorized shows on the road today, presenting the best of circus performances with some of the best circus performers in the circus world, their trained ring stock is of the finest and all well trained, while the wild west unit has the best of fancy and trick riders and ropers, cowboys and cowgirls, a tribe of real Indians among which is a two months old papoose a sight indeed to see. Then there is the real Indian village where the Indians live in their native tepees. One of the big features is a reproduction of a genuine Indian wedding ceremony, this being presented for the first time in public, and only being made possible by the fact that Pawnee Bill is the only living white chief and special permission was granted on this account. This is certainly worth seeing, see the strange dances, hear the weird chants and songs of the tribe, see the Indians in their gala ceremonial dress.

This show also carries some buffaloes from the Pawnee Bill ranch in Pawnee, Oklahoma where Major Little has a large herd of these, true American animals. Taking it all and all the Harrington Nickle Plate Circus and Pawnee Bill's Buffalo Ranch combined shows have plenty of new and novel features to offer along with the wire walkers, aerial acts, trained dogs, ponies, monkeys, educated horses, funny clowns, callopes, bands and all the things one always see when they attend the circus. Don't forget the big free street parade at noon on circus day.

This is Walgreen week at Sterling's Drug Store. 11416

Maranville Awaits Outcome of Second Operation On Leg

Rochester, N. Y., May 18—(AP)—Walter J. "Rabbit" Maranville, game little second baseman of the Boston Braves, was reported to be "resting comfortably" today following an operation yesterday afternoon to facilitate knitting of an imperfectly healed broken bone in his left leg.

With his leg in a cast for the second time, he waited with a cheerful

smile to learn whether he will be able to resume his 21-year career as a major league ball player.

An X-ray will be taken in about two weeks to see how the bone is knitting, it was said. The leg was broken when Maranville slid to home plate during a training camp game with the Yankees.

BROWNS SHOWING NEW LIFE UNDER HORNSBY'S LEAD

Rajah Hits a Homer in Pinch: Cubs Take Lead in National

By Hugh S. Fullerton, Jr. (Associated Press Sports Writer.)
Stimulated by the influence and example of Manager Roger Hornsby, the St. Louis Browns have begun to assume a threatening attitude toward their American League rivals.

After a bad start which allowed them to remain out of the cellar only because the Chicago White Sox were even less successful, the Browns wound up their recent eastern tour with a flourish of four victories in their last five games. Returning home yesterday they avenged two defeats in Boston by triumphing over the Red Sox 4 to 3, and moved ahead of the losers into sixth place in the standing, virtually tied with Washington for the next higher notch.

For seven innings the Browns couldn't do a thing with Fritz Ostermuller, a rookie left hander. Then Hornsby inserted himself as a pinch hitter in the eighth after another pinch batsman, Al Bejma, had doubled, and smashed a home run that tied the score at 2-2. Ray Pepper and Earl Clark followed with doubles and Oscar Melillo singled for the other two St. Louis runs.

West Sweep Program
The Detroit Tigers made the only other American League gain as the western clubs, starting their home stands, swept the program. The Tigers beat out the league-leading Yankees, 5 to 4, to give Tommy Bridges his first triumph over New York and moved into third place. The White Sox showed Philadelphia down to fourth by defeating the A's 7 to 2 in their first home game under Jimmy Dykes' management.

Cleveland's Indians spotted the Washington Senators four runs in the first two innings, then cut loose with a 17 hit attack on four Senators pitchers that produced seven runs in the seventh and a final score of 14 to 2.

The Cubs regained the National League lead in their first game in the east as Chuck Klein socked his tenth and eleventh homers and led the way to a 10-3 triumph over the Phillies. Pittsburgh dropped to second when Earl Grace made a wild throw past first trying for a double play in the tenth inning of a hurling duel between Van Mungo and Bill Swift. The error gave Brooklyn a 2 to 1 decision.

The St. Louis-New York struggle for third place remained unchanged as both clubs won. The Cards defeated Boston 5 to 3 as Virgil Davis and Manager Frank Frisch hit homers to back Paul Dean in his third pitching triumph. Big Fred Fitzsimmons pitched and batted the Giants to a 6 to 3 victory over Cincinnati, giving only four hits in the first seven innings and helping out with a homer.

TERRY DECIDES GIANTS SHOULD KEEP SLUGGING

Manager of Champions Reviews Chances of His Clever Team

By ALAN GOULD
(Associated Press Sports Editor.)
New York, May 18.—(AP)—Disatisfied so far with the efforts of the Giants to outpoint the opposition with fancy footwork and a light left jab, Colonel Will Terry passed the word to his men today to "stick and slug," even if it takes all summer.

"We are still alive and kicking," smiled the champions' manager. "But there's no use kidding ourselves that we can win as many low score games with this jack-rabbit ball as we did last year or that our pitching defense is going to be as good as we need, until Parmelee returns. For that reason I have shifted the line-up to get more batting punch. O'Doul will stick as long as he keeps hitting and I'm hoping Johnny Verrez will snap out of his slump in time to deliver his former driving power."

The livelier ball has helped us as much as it has any of the other clubs. There's Joe Moore, for instance. He has hit four home runs so far, almost as many as he got all last year. Mel Ott is getting more distance too. And we would have had a tougher time in the west without Travis Jackson's bat."

Believes in Pitching
For all that Terry talks about the value of a solid base-hit as good strategy, however, he clings to the conviction that pitching will decide whether the Giants keep the championship or yield to the challenge of one of the three western clubs that cuffed the New Yorkers around and knocked them off their high horse.

"If we can just stick fairly close to the pace until Parmelee gets back, in July, I think we will have the stuff to beat them all down the stretch," said Terry. "We know those western clubs are tough but we may be just a bit tougher in the clinches."

"Because of their pitching, the Cardinals may give us a stronger fight than either the Cubs or Pirates, not to forget that the Braves are in there hustling."

Fears Cardinals
"The way those Dean boys looked against us, however, the Cards appear to be the club we've got to worry most about. Medwick is in the league now, and there's a lot of power otherwise in Frisch's club."

"I was also impressed by the youngster the Pirates have at second base, Lavagetto, as well as the ability of both Camilli and Stainback. Cub rookies, Camilli is a left handed batsman but he hit one of Hal Schumacher's last balls over the left field fence that cost us the toughest defeat of our road trip after it looked like my homer had won the game. All we got out of that, as I told Hal afterwards, was the satisfaction of knowing we were almost a couple of heroes."

The Beier Bakers were treated to a sound drubbing at the hands of the Oregon team of the Rock River Valley Softball League on the Oregon field last evening, to the tune of 6 to 3. Lebre recorded the most healthy hit of the evening for Dixon players who got only four singles off Mienke's delivery in the entire evening. Beyers started on the mound for the Bakers and lasted until the fifth when all the damage had been done. Adolph Felting then took up the pitching duty and continued until the eighth when he was removed for a pinch hitter and Edgar Clarke finished the game.

The game marked the official opening of the fine new lighted field near the Ogle county fair grounds. Manager Elyne of the Oregon team has assembled a very fine crew of players and in the lineup appeared the names of Tom Hasselberg and Harold Schertner of Dixon. A good sized crowd saw the game and several from Dixon motored to Oregon to witness the defeat of their favorites.

ERRORS COST GAME
Princeton and Ashton were tied at 3 runs each at the opening of the eighth inning in the game which opened the season schedule at Princeton last evening. Barefield of Dixon pitted the entire route for Ashton but ragged support in the latter innings allowed runs to score in rapid succession for Princeton. The final count was 10 to 3 in Princeton's favor. Only a small crowd attended the game.

Rock Falls was unable to play their opening game on their own park, and celebrated the home opening on the Sterling field, where the teams from the two cities tangled. Rock Falls scored four runs in the third, four in the fifth, one in the seventh and two in the eighth to win by a margin of 11 to 2. The Sterling Oskies pair came singly in the fourth and sixth innings. C. Kosier, Thompson and R. Kosier were the battery for Sterling, with Deets and Smith working for Rock Falls.

Donna the BIG TOP

BEGIN HERE TODAY
DONNA GABRIEL and MADELINE SIDDAL, who call themselves "The Gabriel Sisters" are circus performers. Years earlier Madeline ran away from her grandfather's farm.

When Donna is injured by a fall from the trapeze Madeline arranges for her to be taken to GRANDFATHER SIDDAL's farm to recuperate. To please her partner Donna pretends to be Madeline. She falls in love with BILL SIDDAL, Madeline's cousin, and though she is ashamed of deceiving Bill and Grandfather she is afraid to tell the truth.

Meanwhile Madeline marries CON DAVID, animal trainer with the circus, and although terrified of the lions and tigers takes part in the animal act.

MRS. PLANTER, the housekeeper on the farm, is hostile to Donna.

Bill asks Donna to marry him.

NOW GO ON WITH THE STORY
CHAPTER XX
DONNA's wedding day! The sun shone in an almost cloudless sky. The air was crisp and cool after several sultry weeks. A robin, singing in a catalpa tree outside her bedroom window, awakened Donna.

She looked at the clock on her dressing table and was amazed to find that it was after 8:30. How had she ever come to sleep so late? What consideration had prompted Mrs. Planter not to call her?

Of course she had lain awake very late the night before. Earlier in the evening she and Bill had sat on the river bank, their hands interlocked, until the dew had made shoes and clothing dank and uncomfortable. Then, under a brilliant moon, they had strolled slowly back to the house. There they had clung together in a good night kiss that was like a farewell.

"Never again, sweetheart," Bill had whispered. "This is the last time we'll ever part."

The wedding was to take place at 12 o'clock. Only Grandfather Sidral and Mrs. Morgan, the minister's wife, besides the Reverend Morgan himself were to be present. Mrs. Planter had laughed noisily when she had been informed there was to be no wedding breakfast and no guests.

"Not that I expected to be invited. My land, no! Even if I lived here for five years I ain't anything more'n a servant to Madeline. I'd like to know what Amos Sidral would have done without me while that girl was gallivantin' around the world!"

MINNIE JONES helped Donna dress. Shortly after Donna had eaten a breakfast consisting of little more than coffee, Minnie arrived, tearful and excited. She shampooed Donna's hair, raving over the glint of gold in the copper waves, regretted that the bride was not to wear a veil and trailing satin dress, but "reckoned" pink chiffon and a white leghorn hat trimmed in wild roses were just "too sweet."

From the living room window Mrs. Planter watched the trio depart—Grandfather in an old Prince Albert coat he insisted upon wearing (though the seams were green with age) since he had worn it at Madeline's father's wedding; Bill in a new suit of gray tweed; and

Donna, looking lovelier than ever in the shell pink chiffon with tiny puffed sleeves and innumerable ruffles on the skirt.

The housekeeper turned away from the window, her lips set more tightly, if possible, than usual. She told Minnie to "shut up and go on home." Then she went upstairs to the room she had occupied since coming to the farm over five years before.

Of course that young upstart would send her packing. She'd known all along that Madeline Sidral had no use for her. Might as well start packing now as any time.

Mrs. Planter dragged her old camel-back trunk down from the attic and took out the upper tray. The first thing she saw was the cigar box containing her most cherished possessions; a lock of Nub's hair when his curls had been cut, a tinsy of the late Mr. Planter, a bit of her wedding cake (a gray rock now), a sea shell picked up beside Lake Michigan the only time Mrs. Planter had ever visited Chicago, and—a rolled up, gaily-colored sheet of paper.

She took out this last and studied it, squinting over the tops of her spectacles. She scratched her head and pursed her lips. Madeline Sidral getting married in the arena, so the advertisement said.

SHE felt certain that neither Bill nor Amos Sidral knew anything of the wedding described in the hand bill and equally certain that Donna would not want them to know. It was, she thought, a good thing that she had kept the bill. She tucked it into the pocket of her apron and decided to wait a while before packing up to leave the farm.

Two hours later the bridal party returned. Donna was flushed and beautiful; Bill, ruddy and slightly embarrassed. The housekeeper was sitting in the hammock on the front porch, as bland and smiling as if she wished the young couple all the happiness in the world!

"I'm a husband, Mrs. Planter!" Bill cried, springing up the steps. "Congratulations! I'm the happiest man in the world!" He caught her hands and swung her to her feet.

"Land sakes," she gasped. "Don't do that! Well, I hope you will always be happy, but I don't approve of cousins marryin' and I'm not going to pretend I do."

"That woman is sheer vinegar," Donna laughed as Mrs. Planter went into the house. A simple mid-day dinner was served. Then Donna, whose happiness made her desire peace with all the world, offered to help Mrs. Planter in the kitchen. Always before Donna's overtures had been refused but today the housekeeper nodded and said she reckoned a little help might come in handy.

As usual Grandfather went to his room for a nap and Bill went off to the fields. The two women were practically alone in the house. Mrs. Planter piled the dishes in the hot, sultry water in silence and placed them, shining and dripping, in another pan for Donna to wipe.
